

Central European Journal of **Biology**

Central European Journal of Biology (CEJB) is an English-language journal devoted to rapid publication of original research and review articles in all biology fields. The aim of this journal is to become the premier source of high quality research from Central and Eastern Europe; however, contributions are welcome from all over the world. Our central goal is:

- to publish timely, useful and informative results that will be of value to a general biological audience;
- to provide a forum for the dissemination of research data from the full spectrum of biology;
- to facilitate the collaboration of researchers from different countries.

All our authors receive transparent, comprehensive and fast peer review. We provide free language assistance to the authors of all accepted articles. Every article published in our journal is promoted to researchers working in the respective field.

Article formats include:

Research Articles, Communications, Reviews, Mini-Reviews, Letters to the Editor and Commentaries on recent advances of interest to its readership.

Coverage includes:

Animal Sciences, Plant Sciences, Evolution, Ecology & Environment, Cellular and Molecular Life Sciences and Biomedical Sciences, in particular - Biochemistry, Bioinformatics, Biophysics, Biotechnology, Cell Biology, Development & Differentiation, Genetics & Genomics, Immunology, Microbiology, Molecular Biology of Disease, Mycology, Neuroscience, Parasitology, Proteomics, Protozoology.
